FACULTY DEVELOPMENT PROGRAMME
ON
OUTCOME BASED EDUCATION (OBE)

Resource Person

Prof. K. Muruga Poopathi Raja
Dept. of Chemistry, Central University of Kerala
Member - IQAC and NIRF Committee, CUK

President

Prof. P. L. Dharma
Hon'ble Vice Chancellor, Mangalore University

Date: September 28, 2024

Time: 10.15 am

Venue: Dr. U. R. Rao Hall, Science Block, Mangalagangothri

Prof. Karunakara N.
Data Officer, IQAC

Prof. Vinay Rajath D.
Dy. Director, IQAC

Prof. Vishalakshi B.
Dy. Director, IQAC

Prof. Monika Sadananda
Director, IQAC

Sri K. Raju Mogaveera KAS
Registrar

FACULTY DEVELOPMENT PROGRAMME ON OUTCOME BASED EDUCATION (OBE)

Date: September 28, 2024

Schedule

Time

10:15 am	Welcome and Introduction – Prof. Monika Sadananda
10:20 am	About the Workshop - Prof. K. Muruga Poopathi Raja
10:25 am	Presidential Remarks – Prof. P. L. Dharma
10:35 am	Vote of Thanks – Prof. Vishalakshi B.
10:40 am	Session 1 - Introduction to OBE Framework
11:30 am	Tea Break
11:45 am	Session 2 – Workshop - OBE Toolkit
1:00 pm	Lunch Break
2:00 pm	Session 3 - OBE Implementation Strategies
3:00 pm	Session 4 – Workshop - OBE Mapping
4:00 pm	Tea Break
4.15 pm	Feedback / Q&A Session

Faculty Development Programme on Outcome Based Education (OBE) held on 28-09-2024 at 10:15 AM in the Dr. U. R. Rao Hall, Science Block, Mangalagangothri

Report

Mangalore University has always been at the forefront of curriculum design, development, deployment and discernment (CD4). Earlier the University adopted the open elective fostering cross-disciplinary flair and learning, subsequently the CBCS system was implemented with hard core, soft core and elective components. In 2021 years the NEP was implemented which was revised in 2024 and adopted as per State guidelines. The curricula designed have led to favourable outcomes for both students and the University. While students were gainfully employed, or went on to do research, or into entrepreneurship or self-employment, and performed in competitive exams, the University also benefitted from increased student strength and introduction of new programmes etc.

The current paradigm of Education as per UGC is Outcome-Based Education, Student Learning outcomes and Graduate Attributes. This is also a component in NAAC accreditation. This paradigm calls for an assessment of our curriculum in terms of the stated POs, PSOs and COs, question paper framing, formative and summative assessments and enables continuous recalibration for better outcomes for the student, the University and the society.

The resource person of the day was Prof. Muruga Poopathi Raja, Professor and Head, Department of Chemistry, Central University of Kerala, Kasaragod. He spoke from his experience as an Educator and from serving as Member of the NAAC and NIRF Committees in his institution. He introduced the concepts and implementation of OBE in HEIs, and dwelt on the recent developments that HEIs are expected to be compliant with, as per the UGC NHEQF student learning outcomes and graduate attributes.

In the afternoon session, he provided the toolkit for mapping of PO, PSOs and COs to K 1-6 of Bloom's Taxonomy and a gave practical workshop on action verbs used to revise COs for better student learning outcomes

During the inaugural Prof. P. L. Dharma exhorted Faculty members to focus on improved learning outcomes for the students, to enable them to receive holistic education, get gainfully employed and be able to compete in competitive exams for better outcomes.

The Registrar (I/c) and Registrar Evaluation, Finance Officer, Deans, Chairpersons of BOS and members of the Faculty were present.

The session ended with Feeback provided by the Faculty participants.
